To Whom It May Concern:

It is my pleasure to recommend Justin Andersen for the Lead Technology Trainer position. We are colleagues at Draper Park Middle School. I value Justin's veteran instructional technology experience and am confident that he will be an asset to any department.

Justin is an expert in his field. He is adept at creating a student-centered classroom while integrating technology to increase effectiveness of instruction. He is more than willing to lend his time leading classroom discussions and delivering lessons that benefit students. Justin effectively acts as liaison to help implement technology programs into any/all classrooms in the school. He believes that technology needs to be in the hands of students and is willing to make that happen.

Justin continually serves teachers both here in the building and remotely when he is in another location. He answers inquiries immediately and effectively. Teachers know that Justin will provide any support needed at any given time. He encourages professional development and provides quality instruction to staff while collaborating with them to best address teachers' needs with regard to technology and delivering instructionally relevant lessons. I can't say enough how crucial Justin's support has been to me with respect to my computer lab. He has come to my aid too many times to count. He possesses a calming demeanor that makes any teacher feel comfortable with accomplishing difficult tasks.

I am confident that Justin would be an exceptional candidate for this position. He is a team player and will collaborate and contribute his talents and knowledge with other Instructional Support teammates as well as teachers and coaches in the district. He is flexible, well organized, and hardworking. I am grateful for the time we have worked together.

It is for these reasons that it is my pleasure to recommend Justin Andersen. If you have any questions, please feel free to contact me at (801) 550-3274 or via e-mail at pamella.saltmarsh@canyonsdistrict.org.

Sincerely,
